

SANTINO MAGRIS

QA Engineer | Test Automation | Cypress · Selenium · Python

santinomagris1@gmail.com · +54 351 555 6657 · Córdoba, Argentina · linkedin.com/in/santinomagris

PROFILE

QA Engineer with 3+ years of experience in manual and automated testing for mission-critical systems in the telecom industry. Hands-on with Cypress (JavaScript/TypeScript), Selenium (Python), Cucumber BDD, and Page Object Model. Experienced in REST API testing, SQL/database validation, CI/CD pipelines with Jenkins, and cross-functional collaboration with offshore development teams in English. Currently working remotely at EPAM Systems for Claro, one of Latin America's largest telecom operators, covering multi-country systems across Argentina, Paraguay, and Uruguay. Open to remote and international opportunities in quality engineering.

PROFESSIONAL EXPERIENCE

QA Engineer

Jun 2024 – Present

EPAM Systems — Client: **Claro** · Córdoba, Argentina

- Built and maintained end-to-end test automation frameworks using Cypress (JavaScript/TypeScript) and Selenium (Python), applying Cucumber BDD and Page Object Model patterns.
- Performed comprehensive testing across web, REST APIs, and SQL databases for systems managing mobile recharge and billing operations across Argentina, Paraguay, and Uruguay.
- Managed and created CI/CD pipelines in Jenkins for automated test execution and deployment across environments.
- Played a key QA role during a major platform upgrade delivered by vendor Comviva, coordinating regression and acceptance testing across three countries.
- Currently supporting QA for a full system migration project in Paraguay, responsible for validating functional and data integrity across environments.
- Communicated daily in English with offshore development teams (India) to report and triage defects, ensuring clear cross-team alignment.

Founder & Software Engineer

Mar 2026 – Present

Valsys Software · Córdoba, Argentina

- Co-founded a software development studio focused on building custom software solutions.
- Responsible for technical strategy, system architecture, and quality assurance processes.

QA Tester

Sep 2023 – May 2024

Vates Software · Córdoba, Argentina

- Executed functional manual and automated testing under Agile/Scrum methodologies.
- Completed internal training in Functional Testing, SQL, PL/SQL, Python, and Automated Testing — applied directly in project work.
- First exposure to CI/CD pipelines (Jenkins) and automation tooling.

TECHNICAL SKILLS

Automation: Cypress, Selenium, Cucumber/Gherkin, Page Object Model, JavaScript, TypeScript, Python

API Testing: Postman, REST

Databases: SQL, PL/SQL

CI/CD: Jenkins (pipeline creation and management), Git, Bitbucket

Methodologies: Agile, Scrum, Regression Testing, Integration Testing, UAT

Tools: JIRA, VS Code, PyCharm

Languages: Spanish (native), English (professional working proficiency)

EDUCATION

Information Systems Engineering

2021 – 2026

Universidad Tecnológica Nacional — Facultad Regional Córdoba

5th year — graduating Dec 2026

COURSES & CERTIFICATIONS

- Automated Testing with Python — IES Siglo 21 (2023) · Selenium, JMeter, Postman
- Python — Object Oriented Programming — IES Siglo 21 (2023)
- Functional Testing — Vates (2023) · Scrum, Trello
- SQL and PL/SQL — Vates (2023)
